5 February 2016

Dear Ms. Drake:

As residents of Corte Balboa, "in the bowl", my brother and I would first like to commend Marin Catholic for being a great and cherished neighbor. We think the addition of the proposed lights would fundamentally change the character of our neighborhood for the worse, not better.

The many issues concerning us include the increased light and noise levels, the traffic and parking situation, and the environmental impact on the marsh. In short, we think these and other issues brought up to you in the many letters sent by concerned Greenbrae residents deserve further study before the application is complete.

Thank you very much for your attention to this important matter.

Sincerely yours,

Alan M. Farnham
