

1-23-16

Dear Senior Planner Jocelyn Drake,

JAN 25 2016 PM 2:24 Planning

This new proposed field lighting system is ridiculous. This is not Levi Stadium, This is still after all a "Residential Neighborhood" that Marin Catholic fails to care about. It is bad enough we who are adjacent to the fields + School have to endure 7 Days a week, 365 Days a year with this place, Holidays are no exception, from 7:30 AM to whatever they want PM. The new sound system is still too loud and the Baseball Battering Cage (How that ever got built) is like Military Torture with the ringing of the metal Bats. The "Existing" lighting system seen from my house seems to be bright enough and adequate for whatever activities they have, anything brighter would be annoying even more than it is now. I am strongly opposed to this new lighting design.
