

Dear Ms. Drake

The instillation of lights on the field at Marin Catholic High School presents a serious threat to the quality of life for those of us who live within range of the school.

Many residents in our county are under the assumption that lights will be used for a few Friday night games. This could not be farther from the truth. The school plans to light the field multiple times a week for practices and sports other than football.

Those of us who live within range of the field know only too well how the sound of screaming crowds, World Cup horns, the MC Drum Corps and loud music affects our lives. Imagine this level of noise invading our homes at night!

As it is, Marin Catholic rents lights for evening practices on the field. They could continue to do this and allow their neighbors the peaceful enjoyment of their homes.

Sincerely, Lynn Arias Bornstein
